I've been working as a provider for years and nothing has improved the primary care experience for my patients and for me more than RubiconMD... I can't imagine working in primary care without it!

-CHCN PRIMARY CARE PHYSICIAN

About Us

RubiconMD was founded in 2013 with a driving vision to democratize access to medical expertise, so that providers can offer every patient the care they deserve. Five years later, we are furthering this mission with the industry-leading eConsult platform, supported by a best-in-class specialist panel, strategic partnerships, top investors and a smart, passionate team.
